Constructed in the late 1800's, this single-fronted home was in desperate need of an overhaul. Renovated in two stages, the recent, more extensive renovation incorporated the addition of a generous upstairs master bedroom with contemporary ensuite, study nook and balcony. Downstairs boasts a new spacious bathroom, powder room and functional laundry. A comfortable decked courtyard flows from the large open plan living area and kitchen. The home now embraces the vision of the owners to a standard far exceeding their expectations while successfully balancing the old and new.
